Curriculum Vitae

Personal identity

Name: Uwase Mahoro Belyse
Location: Kigali, Rwanda
Email Address: mahorobelyse1@gmail.com
Phone number: +250787488939

Profile

I am a creative and detail-oriented full stack developer with a strong passion for technology and design. I specialize in building responsive, user-friendly, and visually appealing websites using HTML, CSS, JavaScript, TypeScript, React/Vite, TailwindCSS, and the MERN stack.

Having recently completed my Bachelor's Degree in Business Information Communication and Technology at Mount Kenya University, I combine technical expertise with business knowledge to create functional and user-centered solutions. I enjoy turning ideas into digital experiences, continuously learning new technologies, and collaborating with teams to build impactful web projects.

Objective

I am a passionate and curious full stack developer with a strong interest in creating responsive, user-friendly, and visually appealing websites. I enjoy solving technical and design challenges, learning new technologies, and collaborating with others to bring ideas to life. My goal is to continue improving my skills, work on meaningful projects, and contribute to innovative digital solutions.

Education

2023-2025 **Mount Kenya University – Kigali, Rwanda**

Bachelor's Degree in Business Information Communication and Technology

2020-2022 **College Immaculée Conception – Southern Province, Rwanda**

High School Diploma – Advanced Level

Combination: Mathematics, Economics and Computer Science.

Skills

Web Development using Frameworks & Tools

- Skilled in HTML, CSS, JavaScript, Typescript, TailwindCSS, React/Vite, Express.js, MongoDB, MySQL, Node.js, GitHub, GIT and modern development workflows.
- Build functional, responsive, and user-friendly web applications.

UI/UX Design

- Experienced in creating user-friendly and visually appealing designs with a focus on user experience and usability.

Data Analysis & Python

- Used Python for data processing**,** visualization, and analysis, turning raw data into actionable insights.

Pitching & Presentation

- Skilled in creating pitch decks and delivering effective presentations for projects and ideas.
- Able to communicate complex technical concepts clearly and persuasively.

Problem-Solving & Collaboration

- Strong problem-solving, time management, communication, and teamwork skills.

Experience

Full stack Developer intern – Nexventures

Jan 2026 – present

- Developed and maintained responsive frontend applications using React and TypeScript.
- Built reusable UI components and improved overall application architecture.
- Implemented modern styling solutions using Tailwind CSS for scalable design systems.
- Enhanced user experience through interactive animations and performance optimization.

IT Intern – Rwanda Stock Exchange (RSE)

May – August 2025

- Supported capital markets operations through IT solutions.
- Assisted in aligning IT with business strategy and planning.
- Contributed to software development and documentation tasks.
- Worked on web development and system improvement activities.

Certification

SheCodes Certificate – React Development

- Gained hands-on experience in front-end development using React**.**
- Built interactive projects, including landing pages and dynamic web applications.
- Learned best coding practices, component-based architecture, and debugging techniques.

SheCodes Certificate – Web Development

- Gained practical skills in building websites using HTML**,** CSS, and JavaScript.
- Created functional and visually structured web pages through hands-on projects.
- Learned core web development principles, including page structure, styling, interactivity, and best coding practices.

SheCodes Certificate – Responsive Web Development

- Developed responsive websites using HTML, CSS, and JavaScript.
- Applied design principles to create user-friendly, mobile-ready interfaces.
- Learned responsive layouts, styling techniques, and cross-browser compatibility.

PLP Certificate – Full-Stack Web Development (MERN) & Python for Data Analysis

- Developed full-stack applications using React**,** TailwindCSS, JavaScript, Express.js**,** MongoDB, and Node.js.
- Implemented real-time features with Socket.io and handled front-end + back-end integration.
- Used Python for data analysis, including processing, visualization, and extracting insights.
- Gained experience as both front-end and back-end developer, including deployment, testing, and creative problem-solving.
- Gained experience in creative pitching, including designing and presenting pitch decks for projects.

Interest

- Exploring new technologies in web development
- Solving design and coding challenges
- Continuous learning and self-improvement
